# THE CHALET

Built in 2022, Chalet Feuillu is a centrally located freestanding chalet boasting incredible views. The chalet is set over three floors, with the entrance located on the ground floor. To the right of the entrance hallway is a garage, with room for one vehicle, and straight ahead a ski room with plenty of storage for skis and boots. A foosball table can also be found on the ground floor. Stairs lead up to the spacious open-plan living room on the first floor.

The first floor is the heart of the chalet where you can relax beside the fireplace or on the expansive balcony, where you'll find a hot tub to soak in after your ski days. The open-plan aspect ensures sociable living, where you can enjoy meals around the dining table which seats six. After dinner, the table can be transformed into a full-size pool table. The living area boasts comfy sofas centred around the fireplace, the perfect spot to retire after a full day on the slopes. From both the living area and its balcony, you'll be treated to views of the snow-capped mountain peaks and beyond.

Chalet Feuillu can accommodate six guests in three spacious double bedrooms, each designed with a plush and contemporary feel. The master double bedroom has access to a private south-facing balcony and an en-suite bathroom with bathtub and separate shower. There are two further double bedrooms, one of which can conveniently be made up as a twin, with access to a shared balcony and en-suite shower rooms.
